Unable to Fool the People Longer, the Trust Begins to Sell at a Reasonable Figure.

The Ice Trust is smashed! The World's PUBLICITY has compelled the arrogant ice bandits to reduce the price from 60 cents for 100 pour to 40 cents, and all bills to householder; dated from the first of the present month will be so made out.

This victory was achieved by the untiring efforts of The World in behalf of the people of New York who were enduring tremendous hardship bemandant of the League Island Navy cause of the exorbitant price charged by the ice barons for this necessary

The decision to so reduce the price was taken last night, when it was decided that all bills for ice should, dating from June 1, be at the rate of 40

The World's crusade against the Ice Barons threw them into a panic and for the past three weeks the Trust drivers have been selling ice to whomever they could for 50 and even 40 cents. Those who did not protest midable versels have been made ready against the exorbitant 60-cent rate were given no reduction.

Neither President Morse nor General Manager Charles A. Winch would discuss this reduction to-day.

Mr. Morse denied himself to all visitors of an inquiring disposition. Island Navy-yard or the commanders sending out word by his secretary that he had nothing whatever to say on

Manager Winch was equally uncommunicative. When seen by a reporter for The Evening World at his office on Twenty-third street, he said: "I cannot discuss the matter in any way."

"Will you confirm the story?" he was asked

"I will not," he answered.

"Will you deny it, then?"

"I will not."

But the story was confirmed a few minutes later, when the superintendent of one of the large apartment houses facing the Park called up Mr. Winch on the telephone and asked him what he was being charged for his

cents a hundred."

A reporter for The Evening World, who has been buying trust ice at 60 cents a hundred visited the depot manager of the trust at the foot of West Manila to reinforce Admiral Kempff's Ninety-seventh street this afternoon, and the manager promptly notified the reporter that dating from June 1 he would be charged only 40 cents a hus-

Asked if the company would furnish ice all over the city at that figure

the trust manager replied: "No, only in the cases of old customers and in big apartment and flat houses. We will not allow other companies to undersell us. Where people

make a 'kick' we will give them ice at 40 cents!" So The Evening World notifies the people of this city to "make a kick"

to the Ice Trust, and make it hard, too. From various other sources this was confirmed, and it is certain the

Trust has yielded to public opinion.

# announces that he will not be can HOW THE WORLD BEAT THE GIANT ICE TRUST.

Never, perhaps, since the days of and the connection of Tor Boss Tweed has New York been so cials and politicians with the excited and angered over a municipal scandal as by the revelations regarding the American Ice Company's apparent control of the les business in this city. (Ces
